Welcome to Jeddah Construct

The largest construct event in the Western Province of Saudi Arabia

On behalf of dmg events, it is my pleasure to welcome you to the 2nd edition of Jeddah Construct, taking place from 28 – 30 September at a new venue, Jeddah Superdome. This year, the event builds on the strong foundation of our inaugural edition, reflecting the scale and ambition of the Western Province's construction sector.

Jeddah's projects pipeline is currently valued at \$692 billion, representing 55% of Saudi Arabia's \$1.25 trillion national development plan. Building on this momentum, Jeddah Construct brings together over 13,000 industry professionals and more than 200 exhibitors from over 20 countries, including Bahrain, China, India, Italy, Kuwait, the Netherlands, South Korea, Thailand and Türkiye.

Alongside the exhibition, the Construct Talks programme provides a forum for knowledge exchange, offering CPD-certified sessions on project delivery & execution, sustainable development, digital systems & intelligent technologies and leadership led by more than 30 industry experts. This year also marks the introduction of The Architects Club, a dedicated gathering for the Kingdom's architecture community. Taking place on 30 September, the programme is designed to connect visionary architects and provide unique opportunities for collaboration, learning and growth.

I extend my sincere gratitude to our exhibitors, speakers, stakeholders and partners, whose support has made this event possible. We look forward to welcoming you to an engaging and insightful three days of discovery, dialogue and connection.

Muhammad Kazi

Pioneering industry innovation and excellence

Construct Talks returns to Jeddah Construct from 28 – 30 September, offering a focused platform to explore the evolving needs of the construction sector across the western region of Saudi Arabia. This year’s program highlights the intersection of innovation, sustainability and leadership – backed by real-world case studies, practical insights and interactive formats tailored to the region’s urban and coastal development landscape.

Designed for professionals navigating complex delivery environments, the agenda offers strategies to address project execution challenges, accelerate digital adoption and strengthen workforce capabilities. With speakers from across the industry, Construct Talks 2025 offers a space to exchange ideas, spark collaboration and gain insights that matter.

The themes include:

Project Delivery & Execution

Sustainable Development

Digital Systems & Intelligent Technologies

Leadership

Think you can handle the drill? In this hands-on challenge, you'll race against the clock to drive screws into a wooden plank. Precision matters just as much as speed, because only fully and neatly drilled screws will count.

▶▶▶ What to expect:

1 minute to drill in as many screws as possible

Only properly driven screws will count towards your score

A test of steady hands, focus and speed

parking

Put your construction knowledge to the test and see how many construction site signs you can match in record time. With only 60 seconds on the clock, it's a race of speed and accuracy where every correct match counts.

▶▶▶ What to expect:

Match real construction signs to their correct meanings

You've got just 1 minute to score as many correct answers as possible

A fun and fast-paced way to show off your quick thinking

WHEN

WHO IS IT FOR

Anyone ready for a quick challenge - no prior knowledge needed

BUILD TO WIN CHALLENGE

Here's your chance to think like a builder. Using foam bricks and props, your task is to design and stack the tallest freestanding tower before time runs out. But watch out - your tower must start with an entry and exit point at the ground floor before you can build higher.

▶▶▶ What to Expect:

Build the tallest tower possible using foam bricks and props

Towers must include a ground-level entry and exit point

Balance and creativity will decide the winner
